This Office action is in response to applicant's RCE filed on 18 July 2006.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below to change the title to one that indicates that the allowed claims exclude an insulation film of SiOCN and to cancel the non-elected claims. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

Change the Title of the Invention to

--Method for Fabricating a Semiconductor Device Including the Use of a
Compound Containing Silicon and Nitrogen to Form an Insulation Film of SiN or
SiCN--.

In the Claims:

Cancel claims 1-7, 20, 22, 24.

Art Unit: 2813

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's amendment filed on 18 July 2006 has been entered.

3. This application is in condition for allowance except for the presence of claims 1-7, 20, 22, 24 directed to species that are non-elected without traverse. Accordingly, claims 1-7, 20, 22, 24 have been cancelled.

4. Claims 8-15, 17-19, 21, 23, 25-26 are allowed.

5. The following is an examiner's statement of reasons for allowance:

- Claims 8-15, 17-19, 21, 23, 25 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for fabricating a semiconductor device that includes forming an insulation film of SiN or SiCN from a first raw material of a compound that contains at least silicon and nitrogen, a second raw material of a compound that contains plural nitrogen atoms in a molecule, wherein the molecule is not N₂, and ammonia as a third raw material; and

- Claim 26 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for fabricating a semiconductor device that includes forming an insulation film of SiCN from a first raw material of a compound that contains at least silicon and nitrogen and a second raw material of a compound that contains plural nitrogen atoms in a molecule, wherein the molecule is not N₂.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
